Four hundred people, auxious to come o Hawaii and stay for from four toive weeks, have decided rehierantly;

Dr. David Starr Jordan, president of the Leland Stanford Junior University and a prominent member of the Amer | the liquor traffic in the Territory of Ha-

The matter of inducing the members of this celebrated society to hold their ip by Professor Bryan and others some months ago, material progress being made. The promotion committee took mittee on territories for consideration. the matter up and prepared a pamphlet setting forth Hawaii's claim to scientific recognition. Other organizations became interested and a committee was named to keep up the campaign and bring the scientists here. The committee was unable to secure any reasonable prospect of ocean rates or of accommodations on the American liners and finally let the matter fizzle out to an inglorious conclusion.

The scientists themselves, however, had been infected with the Hawaii microbe and opened up negotiations on their own account with the steamship hip companies succeeded in. They succeeded in keeping from four to six hundred visitors away from Honolulu. The letter of Doctor Jordan, writ

ten under date of January 24, says: ton at the meeting of the American Fletcher. Association. It was felt that the association would like very much to meet at Honolulu, but that it would rather not go in 1910 because so many of the members are engaged at the meeting in Gratz of the International Zoological Association, and a corresponding meetregards 1911, the matter was laid on the table, somewhat reluctantly, but it was understood that the sole reason against it was not lack of interest on the part of the people of Hawaii, but the fact that there is no certainty of not go until we are absolutely sure of Flynn, "the Los Angeles fireman," last
